

Murat Divringi

Mr. Divringi has been actively involved in designing, developing, and delivering commercial software products for over 30 years. He has led development of products that are installed in thousands of sites throughout the world, many of them Fortune 500 companies performing mission critical tasks. He is the founder and President of Dynotag, Inc., offering maintenance-free Smart Label and Smart Tag solutions for consumers and businesses.

Mr. Divringi has been an active entrepreneur and an investor in several ventures. He has been helping growing organizations via his consulting practice at Whitehot.com, and was a founder of Planario.com, a BPM consulting practice. Prior to Planario.com, Mr. Divringi served as Vice President of Engineering with CacheFlow, Inc. (now BlueCoat.com), where he was responsible for various aspects of product development for a high- performance Internet content distribution and management appliance. He also served as the Director of Engineering at Emulex Network Systems' Northwest Development Center. Author of several patents, Mr. Divringi holds a master's degree in Computer Science from Rensselaer at Hartford, a branch of Rensselaer Polytechnic Institute.
